Approval Procedure for Importing Fish From Thailand

Fresh Water Fish

1. Get the approval from NAQDA
   (Request to be submitted by Letter head with list of fishes to NAQDA)

2. Get the approval from Ministry of Fisheries (with NAQDA Approval)
   (Request to be submitted by Letter head with list of fishes to Fisheries Ministry along with approval of NAQDA)

3. If it's for Import, breeding and re export we can get the approval from BOI for tax concession. If not no need BOI approval.

4. Have to get the shipment flight booking details to apply for the Health Certificate

5. Have to get the Final Invoice and Health Certificate from Indonesia

6. For Fresh water have to apply to DAPH – Peradeniya to get final approval

   a. This set of documents can be send to DAPH through an email : daphimport@yahoo.com. Tel: 081-2388463, 081-2388170.

   b. Once the approval obtained from DAPH need to inform Quarantine officer at Katunayake airport (at least three days before) about the arrival of this shipment.

   c. Original approval of DAPH must be obtained.

7. Send all the relevant documents to forwarder to clear the shipment.

Director/ Veterinary Regulatory Affair's
Dept. of Animal Production & Health
Gatambe, Peradeniya

Dear Ma'am,

Inv. #: 1510 – 010 Request of Permit – Import of Ornamental Fish

1. As ornamental fish breeders and native marketers, we breed some fish verities to fulfill the requirement of native customers & the rest of the requirement has to be imported as they are not locally available at competitive prices.
2. In addition to that, as the ornamental fish exporters, in order to meet the overseas customer purchase order quantities, we have to import some other fish varieties besides the locally collected or brood species, to satisfy the rest of the overseas customer requirement.

Hence please kind enough to give the required permit to import the attached list of fish species which are being imported under the invoice numbers **1510 – 006 dated 11th** November, 2015

II. Health information	II. a Certificate reference number: 1448

7/11

Part II: Certification

II.1 General requirements

I, the undersigned official inspector, hereby certify that the aquatic animals referred to in Part I of this certificate:

a) have been inspected within 72 hours of loading, and showed no clinical signs of disease;
b) are not subject to any prohibitions due to unresolved increased mortality;
c) are not intended for destruction or slaughter for the eradication of diseases;
d) originate from aquaculture farms that are all under the supervision of the competent authority; and
e) no un-explained mass mortality during the past 3 months.

II.2 Declaration of health information

I, the undersigned, certify that the animals identified above meet the following conditions: They come from a farm establishment/ zone/ country where they are submitted to a health supervision set up to operate according to the procedures described in the *Manual of Diagnostic Tests for Aquatic Animals* from World Organisation for Animal Health and that is recognized officially unaffected by the following diseases:

a) for fish: epizootic haematopoietic necrosis, infection with *Aphanomyces invadans* (epizootic ulcerative syndrome), infection with *Gyrodactylus salaris*, infection with infectious salmon anaemia virus, infection with salmonid alphavirus, infectious haematopoietic necrosis, koi herpesvirus disease, red sea bream iridoviral disease, spring viraemia of carp, and viral haemorrhagic septicaemia
b) for mollusc: infection with abalone herpesvirus, infection with *Bonamia ostreae*, infection with *Bonamia exitiosa*, infection with *Marteilia refringens*, infection with ostreid herpesvirus-1 microvariant, infection with *Perkinsus marinus*, infection with *Perkinsus olseni*, and infection with *Xenohaliotis californiensis*
c) for crustacean: crayfish plague (*Aphanomyces astaci*), infectious hypodermal and haematopoietic necrosis, infectious myonecrosis, necrotising hepatopancreatitis, taura syndrome, white spot disease, white tail disease, and yellow head disease
d) for amphibian: infection with *Batrachochytrium dendrobatidis* and infection with ranavirus

II.3 Transport and labeling requirements

I, the undersigned official inspector, hereby certify that:

a) the live aquatic animals referred to above are placed under conditions, including with water quality, that do not alter their health status;
b) the transport container is clean and disinfected or previously unused; and
c) the consignment is identified by a label on the exterior of the container with the relevant information referred to in boxes I.16 of this certificate.

This certificate is valid for ten days from the date of issue.

Importation of Live Fish from Indonesia

This refers to your application dated 08.12.2015 regarding the above importation.

I wish is to inform you that, import of the following consignment of live fish from **Indonesia** and could be allowed subjected to following conditions;

1. Submission of an International Veterinary Certificate from the Govt. Veterinary Authority in **Indonesia** along with the consignment attesting that the aquaculture establishment (zoo) from where this consignment of fish is originated is free from following diseases for a period of two (02) years immediately prior to export.

- ***a. Epizootic haematopoitic necrosis***
- ***b. Spring Viruemia of Carp***
- ***c. Epizootic Ulcerative Syndrome and***
- ***d. Infectious haematopoitic necrosis***
- ***e. Koi herpes virus disease***
- ***f. Viral haemorrhagic septicaemia***

2. The consignment will be subjected to Quarantine surveillance at an identified isolated place for minimum period of 14 (Fourteen) days on its arrival.

3. The intended date of arrival of the consignment should be notified to the Animal Quarantine Officer, Katunayake at **least four (04) days** prior to arrival.

4. Importer should agree to

- Submit laboratory samples of fish and water at the time of Quarantine clearance for further investigation, at the port of entry and during the quarantine surveillance period
- Inform immediately to the Animal Quarantine Officers if you notice any fish mortality during the quarantine surveillance period.
- Bear all the expenses incurred for testing during this period

Invoice No and date : 1510-010 , 13.10.2015

Approval No. and date: F/15/12/29 Date: 08.12.2015
